CHEMIN DE FER.

COMPTE-RENDU DES OPÉRATIONS EN 1847.

MESSIEURS,

En déposant aujourd'hui le Compte-rendu des opérations du chemin de fer de l'État pendant l'exercice 1847, je satisfais à l'art. 6 de la loi du 1^{er} mai 1854, et je remplis en même temps l'engagement que j'avais pris vis-à-vis de la Chambre, de présenter ce document pendant le 1^{er} trimestre de 1848.

CHAPITRE PREMIER.

DÉPENSES DE PREMIER ÉTABLISSEMENT.

Au premier janvier 1847, il avait été dépensé sur les fonds mis à la disposition du Gouvernement, pour l'établissement du chemin de fer, une somme totale de fr. 156,216,826 50
 qui se subdivisait, par catégorie de dépense, de la manière suivante :

| | | | |
|---|----------------|---|-----------------------|
| Route proprement dite fr. | 118,251,148 54 | } | 119,570,985 01 |
| Bâtiments, machines et accessoires des plans inclinés | 1,319,854 67 | | |
| Bâtiments et clôtures des stations | | | 9,159,882 65 |
| Dépensances des stations. | | | 2,076,852 25 |
| Dépenses générales (frais de conduite, de bureau, etc.) . . | | | 4,971,650 55 |
| Matériel des transports | | | 20,457,458 06 |
| Total égal fr. | | | <u>156,216,826 50</u> |

Au 1^{er} janvier 1848, les dépenses de premier établissement s'étaient élevées au chiffre de fr. 160,161,878 52
 subdivisé par catégorie de dépense (Annexe n° I) comme suit :

| | | | |
|---|----------------|---|-----------------------|
| Route proprement dite fr. | 120,006,670 24 | } | 121,495,249 85 |
| Bâtiments, machines et accessoires des plans inclinés | 1,488,579 61 | | |
| Bâtiments et clôtures des stations | | | 10,075,689 07 |
| Dépendances des stations | | | 2,119,551 48 |
| Dépenses générales (frais de conduite, de bureau, etc.) | | | 5,144,551 52 |
| Matériel des transports | | | 21,529,236 80 |
| Total égal fr. | | | <u>160,161,878 52</u> |

On a donc dépensé en 1847, pour la construction du chemin de fer, une somme totale de fr. 3,945,052 22
 répartie par nature de dépense, comme suit :

| | | | |
|---|--------------|---|---------------------|
| Route proprement dite fr. | 1,755,521 90 | } | 1,924,266 84 |
| Bâtiments, machines, etc., des plans inclinés | 168,744 94 | | |
| Bâtiments des stations | | | 915,806 42 |
| Dépendances des stations | | | 42,499 25 |
| Dépenses générales | | | 172,700 97 |
| Matériel des transports | | | 891,778 74 |
| Total égal fr. | | | <u>3,945,052 22</u> |

L'étendue du chemin de fer étant de $111 \frac{8}{10}$ lieues de 5 kilomètres, chaque lieue de route avait coûté, au 1^{er} janvier 1848, fr. 1,452,574-94 en total et par espèce de dépense, savoir :

| | |
|--------------------------------------|---------------------|
| Pour la route fr. | 1,086,719 58 |
| Id. les stations | 109,061 48 |
| Id. les dépenses générales | 46,012 98 |
| Id. le matériel | 190,781 20 |
| Total égal fr. | <u>1,452,574 94</u> |

Les fonds mis à la disposition du Gouvernement pour l'établissement du chemin de fer s'élevaient, au 1^{er} janvier 1848 (Annexe n° II), à fr. 162,257,025 75

A la même époque il avait été mandaté sur ces fonds . . . 160,940,963 48

Et il restait disponible fr. 1,296,060 27

Il restait, en outre, à la disposition de la régie des chemins de fer, sur les crédits qui lui avaient été ouverts 65,981 47

Et la Société Cockerill avait encore à rembourser sur les avances faites par le Gouvernement à l'établissement de Seraing 15,687 76

De sorte qu'il restait à dépenser au 1^{er} janvier 1848 . . . fr. 1,577,729 20

L'administration des domaines a vendu ou rétrocédé, en 1847, des terrains qui avaient été emprisis pour l'établissement du chemin de fer, pour une somme de fr. 70,619 61

Les ventes et rétrocessions antérieures avaient produit . . . 1,101,014 63

Ainsi, sur le capital alloué pour la construction du chemin de fer, il était rentré dans les caisses du trésor, au 1^{er} janvier 1848, une somme de fr. 1,171,634 24

qui devra venir en déduction des dépenses de premier établissement du chemin de fer (Annexe n° III).

L'Annexe n° IV indique la situation du matériel des transports au 1^{er} de chaque mois de l'année 1847, et présente la comparaison de ce matériel au 1^{er} janvier 1847 et au 1^{er} janvier 1848. Elle indique, en outre, les diverses mutations et transformations qu'a subies ce matériel pendant l'année 1847.

La comparaison du matériel, au 1^{er} janvier 1847 et au 1^{er} janvier 1848, présente les principaux résultats suivants :

| | NOMBRE EXISTANT | | DIFFÉRENCE AU 1 ^{er} JANVIER 1848. | |
|------------------------------------|-------------------------------------|-------------------------------------|--|-----------|
| | AU 1 ^{er} JANVIER 1847. | AU 1 ^{er} JANVIER 1848. | EN PLUS. | EN MOINS. |
| Locomotives | 155 | 155 | » | » |
| Tenders | 148 | 154 | 6 | » |
| Voitures pour la poste | 14 | 14 | » | » |
| Voitures pour voyageurs | 724 | 751 | 27 | » |
| Waggon pour marchandises | 2,507 | 2,915 | 408 | » |
| Waggon de service | 400 | 594 | » | 6 |

On a passé des marchés, en 1847, pour la fourniture de 600 waggon à marchandises. Comme on le voit, 408 de ces waggon ont été mis en service dans le courant de l'exercice ; les 192 autres seront achevés sous peu.

Le matériel pour le transport des marchandises aura donc été augmenté de près de $\frac{1}{4}$ en 1847.

CHAPITRE DEUXIÈME.**EXPLOITATION.****§ 1^{er}.****DÉPENSES D'EXPLOITATION.**

L'exploitation du chemin de fer a donné lieu, en 1847, à une dépense totale de fr. 9,518,860-77, qui s'est répartie entre les différentes branches de service de la manière suivante (Annexe n° V) :

| | | | |
|--|---------------------|----|-------------------------------------|
| Administration générale fr. | 543,694 02 | ou | 5 ⁷ / ₁₀ p. % |
| Entretien des routes et des stations | 2,916,684 70 | | 51 ⁴ / ₁₀ |
| Locomotion et entretien du matériel | 4,644,970 12 | | 50 ¹ / ₁₀ |
| Transports | 1,144,764 52 | | 12 ³ / ₁₀ |
| Perception | 231,097 61 | | 2 ⁵ / ₁₀ |
| Service de la régie | 37,650 00 | | |
| Total fr. | <u>9,518,860 77</u> | | |

En 1846, la dépense totale d'exploitation s'était élevée à la somme de fr. 7,245,766-52, répartie entre les divers services comme suit :

| | | | |
|--|---------------------|----|---------------------------------------|
| Administration générale fr. | 591,800 00 | ou | 5 ⁴¹ / ₁₀₀ p. % |
| Entretien des routes et des stations | 1,816,772 64 | | 25 ⁷ / ₁₀₀ |
| Locomotion et entretien du matériel | 3,745,294 47 | | 51 ⁶⁸ / ₁₀₀ |
| Transports | 1,062,554 49 | | 14 ⁶⁷ / ₁₀₀ |
| Perception | 229,544 92 | | 5 ¹⁷ / ₁₀₀ |
| Total | <u>7,245,766 52</u> | | |

La dépense d'exploitation ayant été en 1847 de fr. 9,518,860 77
et en 1846 de fr. 7,245,766 52

Il y a eu, en 1847, une augmentation de fr. 2,073,094 25

Mais il serait injuste d'attribuer cette augmentation exclusivement à l'exploitation de 1847; nous allons voir, en effet, qu'elle résulte en majeure partie des remplacements extraordinaires de billes, de rails et de voitures qui ont dû être effectués en 1847, évidemment parce qu'on avait ajourné des remplacements qui auraient dû être faits pendant les exercices précédents.

On a dépensé en 1847 :

| | | |
|---|--------------|----------------|
| Pour renouvellement de billes et rails, fr. | 1,422,731 55 | } 2,195,299 93 |
| Pour renouvellement de matériel . . . | 772,568 38 | |

On avait dépensé en 1846 :

| | | |
|---|------------|--------------|
| Pour renouvellement de billes et rails, fr. | 521,186 57 | } 721,163 37 |
| Pour renouvellement de matériel . . . | 199,976 80 | |

Augmentation pour renouvellements extraordinaires en 1847, fr. 1,474,136 56

| | |
|---|-------------------|
| A cette somme il faut encore ajouter les frais du service de la régie, soit | 37,650 00 |
| qui, à partir du 1 ^{er} janvier 1847, ont été imputés sur le budget; | |
| ce qui fait un total de fr. | 1,511,786 56 |
| qui réduirait l'augmentation de 1847, soit | 2,075,094 25 |
| à la somme de fr. | <u>561,507 69</u> |

Aux termes de la loi de concession, les lignes de Jurbise à Tournay et de Landen à St-Trond doivent être exploitées par l'État et à son profit, à la condition que la moitié de la recette brute effectuée sur ces lignes sera acquise à la Société.

Sur ces deux lignes on a ouvert, en 1847, les sections suivantes :

Le 14 juillet, la section de St-Trond à Alken, longue de 12 kilomètres, ce qui équivaut à 5.50 kilom.
exploités pendant l'année entière;

Le 1^{er} décembre, la section d'Alken à Hasselt, longue de 5 kilomètres, ce qui équivaut à 0.42
exploités pendant l'année entière;

Et le 20 septembre, la section de Jurbise à Maffles, longue de 15 kilomètres, ce qui équivaut à 5.58
exploités pendant l'année entière.

Ensemble 9.50 kilom.
ou 4 ⁹/₁₀ lieue.

L'étendue du chemin de fer de l'État étant de 111 ⁸/₁₀ lieues,
on a exploité en 1847 113 ⁷/₁₀ lieues,

pendant l'année entière, et la dépense d'exploitation s'étant élevée à fr. 9,318,860-77, chaque lieue exploitée a coûté fr. 81,960 07

En 1846, la dépense d'exploitation n'avait été, par lieue de route, que de 64,810 07

Il y a donc eu, en 1847, une augmentation de dépense, par lieue de route exploitée, de 17,150 00

Les trains ont parcouru, en 1847, un nombre total de 761,814 lieues (Annexe n° VI).

Les convois de voyageurs ont parcouru 352,545 lieues
 et les convois de marchandises 409,269 »
 Total égal. 761,814 lieues.

La dépense par lieue de parcours a donc été de fr. 12 23

Cette dépense n'avait été, en 1846, que de 11 10

Chaque lieue de parcours d'un convoi a coûté, en 1847. 1 15

de plus qu'en 1846.

Le tableau suivant renseigne les dépenses d'exploitation de chacun des exercices 1841 à 1847 inclusivement, ainsi que le coût de chaque lieue exploitée et de chaque lieue parcourue pendant les mêmes exercices :

| EXERCICES. | MONTANT TOTAL des dépenses D'EXPLOITATION. | PARCOURS TOTAL des convois. | NOMBRE de lieues exploitées | DÉPENSE par lieue exploitée. | PARCOURS fourni par chaque lieue exploitée. | DÉPENSE par lieue de parcours |
|------------|--|-----------------------------------|-----------------------------------|------------------------------------|--|-------------------------------------|
| 1841 | 4,559,659 17 | 289,726 | 67 ³ / ₄ | 67,006 04 | 4,278 | 15 67 |
| 1842 | 4,700,327 08 | 517,818 | 79 ² / ₁₀ | 59,547 56 | 4,015 | 14 79 |
| 1843 | 5,476,615 72 | 575,454 | 96 ¹ / ₂ | 56,752 49 | 5,890 | 14 59 |
| 1844 | 5,765,450 80 | 497,061 | 111 ⁸ / ₁₀ | 51,569 14 | 4,446 | 11 60 |
| 1845 | 6,521,575 48 | 545,502 | 111 ⁸ / ₁₀ | 56,545 61 | 4,877 | 11 59 |
| 1846 | 7,245,766 52 | 652,422 | 111 ⁸ / ₁₀ | 64,810 07 | 5,856 | 11 10 |
| 1847 | 9,518,860 77 | 761,814 | 115 ⁷ / ₁₀ | 81,960 07 | 6,700 | 12 25 |

Les convois ont été quelque peu plus considérables en 1847 qu'en 1846 (Annexe n° VII).

Ils se sont en effet composés en moyenne, pendant l'année 1847, de 15.2 voitures, tandis qu'ils n'avaient été, en 1846, que de 14 voitures.

La dépense pour renouvellements de billes et de rails s'est élevée pour 1847, comme il est dit plus haut, à fr. 1,422,751 55

Soit pour rails et accessoires fr. 901,640 78

Et pour billes 521,090 77

Somme égale fr. 1,422,751 55

Les rails fournis en 1847 ont été adjugés au prix de 520 francs le tonneau.

On a remplacé en 1847 par des rails neufs, 129,695 mètres de rails, présentant une longueur de 13 lieues de route à simple voie (Annexe n° VIII).

En 1846 on n'avait remplacé que 8,051 rails, soit environ une longueur de $3\frac{3}{4}$ lieues de simple voie.

Ainsi on a remplacé en 1847 plus de trois fois autant de rails qu'en 1846.

En 1847 on a de nouveau admis diverses essences de bois pour la fondation du railway.

L'administration a fait fournir des billes en chêne et en sapin du Nord pour être employées au naturel et elle a fait fournir des billes en bois blanc pour être préparées d'après divers procédés de conservation.

Les billes de chêne ont coûté en moyenne fr. 5-62, et les billes d'autres essences fr. 3-55 la pièce (Annexe n° IX).

On a remplacé en 1847 un nombre de 102,000 billes représentant environ 20 lieues de simple voie (Annexe n° X).

L'Annexe n° XI indique le nombre de lieues parcourues par chaque locomotive du chemin de fer depuis sa mise en service et pendant l'année 1847; elle indique aussi le nom du fournisseur et le prix d'achat de chaque machine.

Les deux machines qui avaient fourni le plus long parcours au 1^{er} janvier 1848, sont le n° 26, *St-Hubert* (constructeur Stephenson), qui avait parcouru 42,152 lieues, et le n° 22, *Les 4 Journées* (constructeur Cockerill), qui avait parcouru 41,894 lieues.

Le charbon pour la fabrication du coke par l'administration et le coke tout fabriqué fourni par l'industrie privée, ont donné lieu, en 1847, à une dépense totale de fr. 1,087,818-44.

Le prix des charbons fournis en 1847 a présenté une légère diminution sur le prix des charbons fournis en 1846 (Annexe n° XII).

L'administration a fait fabriquer dans ses fours, en 1847, une quantité totale de 1,237,858 hectolitres de coke au prix moyen de fr. 0.821 l'hectolitre (Annexe n° XIII).

Le coke fabriqué en 1846 avait coûté fr. 0.974 l'hectolitre. Il y a donc eu, en 1847, une diminution de fr. 0.153 dans le prix de revient par hectolitre.

Le prix de fr. 0.821 par hectolitre équivaut à celui de fr. 25-46 les 1,000 kilogrammes.

Le prix de revient du coke fabriqué par l'administration avait été, en 1846, de fr. 27-85 les 1,000 kilogrammes.

L'administration a fait fournir par l'industrie privée une quantité de 1,663,505 kilogrammes de coke pour une somme de fr. 57,515-22, ce qui fait fr. 22-55 les 1,000 kilogrammes.

Le coke fabriqué par l'administration n'a donc coûté que fr. 0.94 par 1,000 de plus que le coke fourni tout fabriqué par l'industrie.

En 1846, le coke fabriqué par l'administration avait coûté fr. 6-59 par 1,000 kilogrammes de plus que le coke fourni par l'industrie.

On a consommé, en 1847, kilog. 58.15 par lieue de parcours d'un convoi (Annexe n° XIV).

En 1846, on n'avait consommé que kilog. 57.40; mais, par contre, les convois ne s'étaient composés, en moyenne, que de 14 voitures, tandis qu'en 1847 ils se sont composés de 15.2 voitures.

Depuis quelques années la consommation de coke par lieue de parcours d'un convoi est restée à peu près stationnaire.

| | | |
|---|--------|-------|
| Ainsi elle a été, en 1844, de | kilog. | 57.60 |
| Id. 1845, de | | 58.17 |
| Id. 1846, de | | 57.40 |
| Id. 1847, de | | 58.15 |

Ce qui porte à croire qu'elle est arrivée à son taux normal.

Ce résultat est dû en partie à la mesure qui accorde des primes pour les économies apportées dans la consommation du coke, et en partie au perfectionnement des machines.

Par une décision du 29 octobre 1847, des primes ont été également accordées aux machinistes, gardes, etc., dont les convois arrivent à destination endéans les cinq minutes qui précèdent ou qui suivent l'heure fixée pour l'arrivée.

Cette mesure a été prise ensuite des nombreuses réclamations que soulevait l'irrégularité que présentait la marche des convois; elle a eu jusqu'à ce jour les plus heureux résultats.

Les primes payées pour économie de coke, en 1847, se sont élevées en total, à fr. 19,405-18 (Annexe n° XV).

Le service du camionnage et du factage des marchandises transportées par le chemin de fer, a donné lieu, en 1847, à une dépense de fr. 159,158-05 (Annexe n° XVI).

L'entreprise du service du camionnage et du factage des marchandises avait fait, dans les derniers temps, l'objet d'adjudications publiques.

Par ce mode de contrat le plus bas soumissionnaire était adjudicataire; il en résultait qu'un intermédiaire venait se placer entre l'administration et l'expéditeur et qu'une partie du transport était effectuée par un agent étranger à l'administration, agent sur lequel celle-ci n'avait pas une action suffisante pour assurer au service toute la régularité désirable.

Aussi la manière dont s'effectuait ce service donnait-elle lieu à d'incessantes réclamations de la part du commerce.

Pour remédier à cet état de choses, j'ai pris, le 15 décembre 1847, un arrêté qui charge les maîtres de poste du service du camionnage et du factage dans les villes de leur résidence, à des conditions consignées dans un règlement qui accompagne l'arrêté précité (Annexe n° XVII).

L'Annexe n° XVIII indique la valeur des objets qui se trouvaient en approvisionnement au magasin central de Malines au commencement et à la fin de l'année 1847. Cette valeur était :

| | | |
|---|-----|-------------------|
| Au 1 ^{er} janvier 1847, de | fr. | 1,720,075 56 |
| Et au 1 ^{er} janvier 1848, de | | 1,512,934 97 |
| Donc différence en moins, au 1 ^{er} janvier 1848, de | fr. | <u>207,138 59</u> |

| | | |
|---|-----|-------------------|
| La valeur des objets payés sur les fonds du Budget était, au 1 ^{er} janvier 1848, de | fr. | 1,032,956 97 |
| Elle était, au 1 ^{er} janvier 1847, de | | 920,999 45 |
| Donc différence en plus, au 1 ^{er} janvier 1848, de | fr. | <u>111,957 52</u> |

§ 2.

TARIFS.

Il n'a été apporté aucune modification au tarif intérieur pendant l'exercice 1847; mais le Gouvernement, pour réduire, autant qu'il était en son pouvoir, le prix des céréales qui, par suite de la mauvaise récolte de 1846, s'était élevé à un taux très haut, a temporairement ordonné le transport gratuit par le chemin de fer des grains importés et déclarés en consommation.

Cette mesure, qui avait pris cours à partir du 10 mars, a cessé ses effets le 20 juillet suivant.

Le chemin de fer a continué, pendant les premiers mois de 1847, de transporter gratuitement toutes les denrées alimentaires achetées par les administrations communales et les établissements de bienfaisance et industriels pour être distribuées aux classes nécessiteuses.

Il n'a été apporté aucun changement aux bases des tarifs franco-belge, franco-belge-rhénan ni belge-rhénan, seulement on a admis :

1° A la 5^e section du tarif franco-belge, les bières en fûts, les fontes et les houilles, et la station de Verviers a été comprise parmi les stations belges qui sont en relation avec le chemin de fer du Nord ;

2° A la 5^e section du tarif franco-belge-rhénan les objets suivants : riz, bois de teinture en bûches, grains, pierres de taille, cuivre et plomb en saumons et

en plaques, salpêtre, soufre, borax brut, couperose, manganèse, mine de plomb, calamine, minéral de plomb, minium, smalte, céruse, blanc de crems, spath en pierre et en poudre, armes en caisses, zinc, grosse quincaillerie et binteloterie, bières en fûts.

Un arrêté royal du 21 juin 1847 dispense de la visite à la frontière les bagages des voyageurs entrant en Belgique par Quiévrain.

Cet arrêté figure aux Annexes sous le n° XIX.

Par suite de l'ouverture du chemin de fer concédé de Bruges à Courtray, une convention a été conclue pour régler les relations de service entre la Compagnie concessionnaire et le chemin de fer de l'État.

Cette convention est reproduite sous le n° XX des Annexes.

§ 3.

MOUVEMENT DES TRANSPORTS.

Les Annexes nos XXI, XXII, XXIII, XXIV et XXV présentent le mouvement des transports de toute espèce, pendant l'année 1847 :

1° Par mois ;

2° Par station ;

3° Par point d'expédition et par point de destination.

Voici le résumé de ces documents :

En 1847, le chemin de fer a transporté 3,746,390 voyageurs, répartis comme suit :

| | | | | | |
|---------------------------------|---|---------------------------------|-----------|-------------|-------------|
| Voyageurs civils. | { | 1 ^{re} classe. | 412,812 | } 3,681,765 | } 3,746,390 |
| | | 2 ^e classe. | 907,339 | | |
| | | 3 ^e classe. | 2,561,594 | | |
| Transports militaires | | | 50,621 | } 64,623 | |
| Id. extraordinaires. | | | 34,004 | | |

En 1846, on avait transporté 3,700,111 voyageurs répartis comme suit :

| | | | | | |
|---------------------------------|---|---------------------------------|-----------|-------------|-------------|
| Voyageurs civils. | { | 1 ^{re} classe. | 414,895 | } 3,652,595 | } 3,700,111 |
| | | 2 ^e classe. | 1,033,738 | | |
| | | 3 ^e classe. | 2,201,762 | | |
| Transports militaires | | | 18,875 | } 47,716 | |
| Id. extraordinaires | | | 28,841 | | |

On a donc transporté de plus en 1847 qu'en 1846 un nombre de voyageurs de 46,279
qui se répartit de la manière suivante :

| | | DIFFÉRENCE EN 1847 | | DIFFÉRENCE |
|--------------------------------|---------------------------------|--------------------|-----------|------------|
| | | EN PLUS. | EN MOINS. | TOTALE |
| | | | | EN PLUS. |
| Voyageurs civils. | 1 ^{re} classe. | » | 2,085 | 29,370 |
| | 2 ^e classe. | » | 128,579 | |
| | 3 ^e classe. | 159,832 | » | |
| Transports militaires. | | 11,746 | » | 46,279 |
| Id. extraordinaires. | | 5,463 | » | |
| | | | | 16,909 |

Cette augmentation est de 1.25 p. % sur le nombre total des voyageurs transportés; mais il y a eu une augmentation de $7\frac{26}{100}$ p. % sur le nombre de voyageurs de la 3^e classe; tandis qu'il y a eu diminution dans le nombre des voyageurs de la 1^{re} et de la 2^e classe.

L'augmentation de 1846 sur 1845 avait été de 6.61 p. % et portait pour les $\frac{5}{9}$ sur les voyageurs de 3^e classe.

Le tantième pour cent de l'augmentation et de la diminution de 1847 peut être réparti de la manière suivante :

| | |
|--|---------------------------|
| Pour la 1 ^{re} classe, de | 0.50 p. % de diminution; |
| Pour la 2 ^e classe, de | 12.59 id.; |
| Pour la 3 ^e classe, de | 7.26 p. % d'augmentation; |
| Pour les transports militaires, de | 62.23 id.; |
| Pour les transports extraordinaires, de . | 17.90 id. |

Le tantième pour cent de l'augmentation de 1846 était :

| | |
|--|-----------|
| Pour la 1 ^{re} classe, de | 4.53 p. % |
| Pour la 2 ^e classe, de | 6.70 » |
| Pour la 3 ^e classe, de | 6.12 » |
| Pour les transports militaires, de | 72.53 » |
| Pour les transports extraordinaires, de . | 72.98 » |

La proportion du nombre de voyageurs civils de chaque classe avec le nombre total des voyageurs civils, transportés en 1847, est :

| | |
|--|-------------|
| Pour la 1 ^{re} classe, de | 11.22 p. %. |
| Pour la 2 ^e classe, de | 24.64 |
| Pour la 3 ^e classe, de | 64.14 |
| | <u>100</u> |

Cette proportion avait été en 1846 :

| | |
|--|-------------|
| Pour la 1 ^{re} classe, de | 11.56 p. %. |
| Pour la 2 ^e classe, de | 28.56 |
| Pour la 3 ^e classe, de | 60.28 |
| | <u>100</u> |

En 1847, il a été transporté, en moyenne, 10,264 voyageurs par jour.

L'Annexe n° XXI permet d'apprécier la grande influence que les saisons exercent sur le mouvement des voyageurs; ainsi l'on voit que pendant le mois de septembre il a été transporté 448,534 voyageurs, c'est-à-dire plus du double du nombre transporté pendant le mois de février, qui n'a été que de 211,565.

On a transporté, en 1847, 12,527,600 kilogrammes de bagages, ou 3.34 kilog. par voyageur.

On avait transporté, en 1846, 12,067,300 kilogrammes de bagages, ou 3.26 kilog. par voyageur.

L'augmentation de 1847 sur 1846 a été de 460,300 kilogrammes ou 3.81 p. %.

L'augmentation de 1846 sur 1845 avait été de 2.29 p. %.

On a transporté, en 1847, 42,843 groups de finances; il n'en avait été transporté, en 1846, que 36,385; on a donc transporté, en 1847, 6,458 groups de plus qu'en 1846, ce qui constitue une augmentation de près de 18 p. %.

L'augmentation de 1846 sur 1845 avait été de 12 p. %.

On a transporté, en 1847, 273,157 colis de petites marchandises de 5 kilogrammes et au-dessous; on n'en avait transporté, en 1846, que 266,540; l'augmentation a donc été de 6,617 colis ou de 2.48 p. %.

L'augmentation de 1846 sur 1845 avait été de 10.30 p. %.

On a transporté, en 1847, 43,308,200 kilogrammes de petites marchandises au poids; on n'en avait transporté, en 1846, que 42,207,700 kilogrammes: l'augmentation a donc été de 1,100,500 kilogrammes ou de 2.60 p. %.

En 1846 il y avait eu sur 1845 une diminution de 6.76 p. %.

On a transporté, en 1847 :

| | | |
|--------------|--------------|-----------------------|
| | 2,745 | voitures à 4 roues et |
| | 55 | id. à 2 id., |
| soit | <u>2,798</u> | voitures en total. |

Il avait été transporté, en 1846 :

| | | |
|------------------|--------------|-----------------------|
| | 5,258 | voitures à 4 roues et |
| | 89 | id. à 2 id. |
| Ensemble | <u>5,547</u> | voitures. |

Ainsi on a transporté 549 voitures de moins en 1847 qu'en 1846.

En 1846 il y avait déjà eu une diminution de 215 sur 1845.

| | |
|---|--------------|
| Le nombre de chevaux transportés, en 1847, a été de | 2,957 |
| Ce nombre n'avait été que de | <u>2,678</u> |
| en 1846; donc augmentation, en 1847, de | <u>259</u> |

On a transporté, en 1847 8,785
têtes de gros bétail ; on n'en avait transporté, en 1846, que 7,875

Augmentation, en 1847. 912
ou plus de 11 p. %.

Mais on avait transporté, en 1846 21,328
têtes de petit bétail, tandis qu'on n'en a transporté, en 1847, que 20,211

Il y a donc eu, en 1847, une diminution de 1,117
têtes de petit bétail ou environ 5 p. %.

En 1847 on a transporté. 961,549,000 kilog.
de marchandises de roulage ;

On en avait transporté en 1846 735,890,000 id.

Augmentation en 1847. 225,659,000 id.
soit plus de 30 p. %.

Sur la quantité totale de grosses marchandises transportées en 1847 :

852,801,000 kilog. ou 87 p. % l'ont été par classes,

et 128,748,000 kilog. ou 13 p. % l'ont été par location de waggons.

Ensemble 961,549,000 kilog. ou 100

En 1846 on avait transporté :

652,909,000 kilog. ou 89 p. % par classes,

et 82,981,000 kilog. ou 11 p. % par location de waggons.

Ensemble 735,890,000 kilog. ou 100

Les marchandises de roulage transportées par classes, en 1847, se sont réparties entre les trois classes dans la proportion suivante :

1^{re} classe 90.1 p. %.

2^e classe 9.2 id.

3^e classe 0.7 id.

100

En 1846 elles s'étaient réparties comme suit :

1^{re} classe 91.6 p. %.

2^e classe 7.4 id.

3^e classe 1.0 id.

100

Le tableau suivant indique dans quelle proportion les transports de toute espèce se sont répartis, en 1847, entre les quatre lignes du chemin de fer.

| LIGNES. | LONGUEUR EN KILOMÈTRES. | VOYAGEURS. | BAGAGES. | FINANCES. | MARCHANDISES DE DILIGENCE. | | VOITURES. | CHEVAUX ET BESTIAUX | | | MARCHANDISES DE ROULAGE. |
|-------------|----------------------------|------------|----------|-----------|-------------------------------|------------|-----------|---------------------|--------------|---------------|-----------------------------|
| | | | | | Par colis. | Par poids. | | Chevaux. | Gros bétail. | Petit bétail. | |
| | kilom. | p. o/o. | p. o/o. | p. o/o. | p. o/o. | p. o/o. | p. o/o. | p. o/o. | p. o/o. | p. o/o. | p. o/o. |
| Nord | 49 | 26 | 26 | 22 | 53 | 29 | 24 | 68 | 53 | 3 | 16 |
| Ouest..... | 201 | 27 | 22 | 23 | 23 | 19 | 21 | 6 | 22 | 41 | 7 |

| TOTAUX..... | 589 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 |

Si l'on compare cette répartition des transports par ligne avec celle des transports effectués en 1846, on trouve qu'en 1847, c'est sur la ligne du Midi que les transports de voyageurs ont augmenté dans la plus grande proportion, et que c'est sur la ligne de l'Est que les transports de grosses marchandises ont augmenté dans la plus grande proportion.

Au moyen des tableaux nos XXV¹ à XXV¹², on trouve que les transports internationaux entre la Belgique et l'Allemagne ont eu lieu, en 1847, comme suit :

Par Herbesthal.

| | | IMPORTANCE DES TRANSPORTS INTERNATIONAUX, ENTRE LA BELGIQUE ET L'ALLEMAGNE. | | | |
|---------------------------|------------------------------------|--|--------------|--|---------------|

| | 3 ^e id. Id. | 1,084,000 | | 2,472,000 | |
| | Location de waggons | » | | 1,925,000 | |

Il résulte du tableau qui précède que les transports internationaux de grosses marchandises, entre la Belgique et l'Allemagne, ont plus que doublé en 1847; on voit, en effet, qu'on a transporté, en total, en 1847, la quantité considérable de kilog. **185,585,000**

On n'avait transporté, en 1846, que **90,747,000**

L'augmentation est donc de kilog. **94,656,000**
ou plus de 100 pour 100.

Mais ce qui mérite le plus d'être signalé, c'est que cette augmentation porte presque exclusivement sur les expéditions de Belgique pour l'Allemagne.

En effet, le chiffre de ces expéditions s'est élevé, en 1847, à kilog. **165,655,000**
tandis qu'il n'avait été, en 1846, que de **77,208,000**

Les expéditions pour l'Allemagne ont donc augmenté de kilog. **88,425,000**
c'est-à-dire de plus de 100 pour 100.

Les expéditions de la Belgique pour l'Allemagne sont plus de huit fois aussi considérables que les expéditions de l'Allemagne pour la Belgique.

Le relevé suivant résume les transports de toute espèce effectués entre la Belgique et la France :

Le nombre de voyageurs transportés de France en Belgique a considérablement augmenté en 1847, où il a été de 145,500

Il n'avait été, en 1846, que de 87,800

Il a donc augmenté, en 1847, de 57,700
voyageurs ou de plus de 65 p. o/o.

Mais l'augmentation des grosses marchandises a été bien plus considérable encore.

Ainsi on a transporté, dans les deux sens, en 1847 . . kilog. 114,174,000

On n'avait transporté, en 1846, que 56,251,000

Différence en plus, en 1847 kilog. 57,923,000
soit de plus de 100 pour 100.

Il est à remarquer que cette augmentation porte exclusivement sur les transports de Belgique pour la France ; car il y a eu, en 1847, comparativement à 1846, une diminution dans les transports de grosses marchandises de France pour la Belgique.

Les transports internationaux effectués par le chemin de fer, renseignés dans les deux tableaux qui précèdent, comprennent les marchandises expédiées en transit par la Belgique.

Voici maintenant le tableau des grosses marchandises qui ont transité par la Belgique, pendant l'année 1847.

| TOTAUX. | 63,308 | 4,821 | 1,403 | 69,532 | 69,532 |

On voit que 69,532,000 kilog. de grosses marchandises ont été transportés en transit par le chemin de fer, en 1847.

On n'en avait transporté, en 1846, que 54,918,000 kilog.; il y a donc eu une augmentation, en 1847, de 14,614,000 kilog., ou d'environ 27 p. %.

Il est bon de faire remarquer que les quantités données dans le tableau qui précède comme transportées en transit, sont en réalité quelque peu trop élevées, attendu que, pour les établir, on a dû considérer comme transportées en transit, toutes les marchandises expédiées entre les différents points frontières et qu'une certaine partie de ces marchandises a eu nécessairement ces différents points pour destination définitive; mais comme on a procédé de la même manière en 1846, l'augmentation signalée pour 1847 n'en reste pas moins réelle.

§ 4.

RECETTES.

Les tableaux nos XXVI, XXVII, XXVIII, XXIX et XXX présentent le relevé des recettes de toute espèce effectuées en 1847.

Ces recettes se sont élevées en total à. fr. 14,856,122 04

La recette de 1846 avait été de. 15,655,908 82

Il y a donc eu, en 1847, une augmentation de. fr. 1,180,215 22
ou de 8 ⁶⁴/₁₀₀ p. %. L'augmentation de 1846 sur 1845 avait été de 10 p. %.

Le tableau qui suit présente la comparaison des divers produits en 1847 et en 1846, en indiquant le tantième de l'augmentation ou de la diminution de chacun de ces produits en 1847.

| | RECETTE totale EN 1847. | RECETTE totale EN 1846. | AUGMENTATION EN 1847. | DIMINUTION EN 1847. |

| A déduire la diminution du chef des articles, voitures et produits extraordinaires..... | | | 55,800 75 = 0.25 | |
| Reste, augmentation totale en 1847..... | | | 1,180,215 22 = 8.64 | |

Ainsi, bien qu'il ait été transporté, en 1847, un nombre de 46,279 voyageurs de plus qu'en 1846, ce qui constitue une augmentation de fr. 1-25 p. %, il n'y a eu cependant dans la recette qu'une augmentation de fr. 0-08 p. %.

Cette différence entre l'augmentation du mouvement et celle de la recette résulte de ce que l'augmentation du mouvement a porté tout entière sur les voyageurs de la 3^e classe, c'est-à-dire sur la classe qui paye le moins, tandis qu'il y a eu diminution dans le nombre des voyageurs transportés à la 1^{re} et à la 2^e classes c'est-à-dire dans le nombre des voyageurs qui payent le plus.

Il y a eu, dans la recette des équipages, une diminution assez sensible par rapport au peu d'importance de cette recette.

On ne peut tirer aucune induction de la diminution des produits extraordinaires, attendu que ces produits ne résultent pas des transports, comme on peut le voir à l'annexe n° XXX^{bis}.

L'augmentation réellement remarquable est celle que présente la recette des marchandises de roulage.

Cette augmentation a été de plus de 23 p. %.

On peut conclure de là que, si les transports de voyageurs semblent avoir atteint le chiffre le plus élevé où ils puissent arriver, au moyen des tarifs actuels, il n'en est pas de même des transports de marchandises de roulage qui sont encore en pleine voie de progression.

En effet, en 1845, il y avait eu sur 1844 une augmentation de 26 p. %. L'augmentation de 1846 sur 1845 était tombée à 13 p. %; mais l'augmentation de 1847 sur 1846 est remontée à plus de 23 p. %.

En 1846, la recette des voyageurs avait été pour la moitié dans l'augmentation totale des recettes sur l'exercice précédent; en 1847, l'augmentation porte presque en totalité sur la recette des marchandises.

La recette totale de 1847 se répartit entre les diverses branches de revenu dans la proportion suivante :

| | | | |
|-------------------------------------|---------------------------------|-------|---|
| Voyageurs | 47 | p. %. | } 50 ⁵ / ₁₀ p. %. |
| Bagages | 3 ⁵ / ₁₀ | id. | |
| Finances | 0 ³ / ₁₀ | id. | } 49 ⁵ / ₁₀ p. %. |
| Voitures | 4 ² / ₁₀ | id. | |
| Chevaux, etc. | 0 ⁷ / ₁₀ | id. | |
| Marchandises de diligence | 7 ¹ / ₁₀ | id. | |
| Marchandises de roulage. | 39 ² / ₁₀ | id. | |
| Produits divers. | 1 | id. | |

Celle de 1846 s'était répartie comme suit :

| | | |
|------------------------------------|-------------------------------------|---|
| Voyageurs | 51 p. %. | } 54 ⁵ / ₁₀ p. %. |
| Bagages | 3 ⁵ / ₁₀ id. | |
| Finances | 0 ³ / ₁₀ id. | } 45 ⁵ / ₁₀ p. %. |
| Voitures | 1 ⁵ / ₁₀ id. | |
| Chevaux, etc. | 0 ⁷ / ₁₀ id. | |
| Marchandises de diligence. | 7 ³ / ₁₀ id. | |
| Marchandises de roulage | 34 ⁶ / ₁₀ id. | |
| Produits divers. | 1 ¹ / ₁₀ id. | |

On voit qu'en 1847 le tantième de la recette des marchandises, par rapport à la recette totale, a à peu près atteint le tantième donné par la recette des voyageurs.

Le nombre total de 761,814 lieues, parcouru par les convois, en 1847, s'est réparti en 552,545 lieues pour le service des voyageurs, et

409,269 id. des marchandises.

Ensemble 761,814

Soit 46 p. % pour le service des voyageurs et 54 p. % pour le service des marchandises.

Il résulte de cette observation que les convois de voyageurs ayant parcouru un nombre de lieues moindre que les convois de marchandises, et donné une recette plus considérable, le produit d'une lieue de parcours d'un convoi de voyageurs a été plus considérable, que le produit d'une lieue de parcours d'un convoi de marchandises.

Le même cas s'est présenté en 1846.

La recette des voyageurs s'est répartie, en 1847, comme suit :

| | | | |
|---------------------------------|--|----------------|----------------|
| Voyageurs civils. | { 1 ^{re} classe, fr. 1,950,526 03 | } 6,849,165 68 | } 6,967,905 01 |
| | { 2 ^e id. . . 2,514,714 70 | | |
| | { 3 ^e id. . . 2,584,124 95 | | |
| Transports militaires | 42,888 96 | } 118,757 53 | |
| Id. extraordinaires | 75,848 57 | | |

En 1846, la recette des voyageurs s'était répartie de la manière suivante :

| | | | |
|---------------------------------|--|----------------|----------------|
| Voyageurs civils. | { 1 ^{re} classe, fr. 1,908,491 51 | } 6,869,654 64 | } 6,962,218 92 |
| | { 2 ^e id. . . 2,502,552 78 | | |
| | { 3 ^e id. . . 2,458,790 55 | | |
| Transports militaires | 25,670 27 | } 92,584 28 | |
| Id. extraordinaires | 68,914 01 | | |

L'augmentation, en 1847, a donc été de fr. 5,684 09
ou de 0.08 p. %.

La recette des voyageurs ordinaires s'est répartie, en 1847, entre les trois classes, de la manière suivante :

| | | |
|----------------------------------|-----|------------|
| 1 ^{re} classe | fr. | 28 p. % |
| 2 ^e id. | | 34 |
| 3 ^e id. | | 38 |
| | | <u>100</u> |

La recette des voyageurs s'était répartie, en 1846, comme suit :

| | | |
|----------------------------------|-----|------------|
| 1 ^{re} classe | fr. | 28 p. % |
| 2 ^e id. | | 36 |
| 3 ^e id. | | 36 |
| | | <u>100</u> |

La recette de la 1^{re} classe est donc restée dans la même proportion, tandis que celle de la 2^e est diminuée de 2 p. % en même temps que celle de la 3^e classe a augmenté de 2 p. %.

Chaque voyageur transporté a produit, en 1847 :

| | | |
|--|-----|------|
| Dans la 1 ^{re} classe | fr. | 4 72 |
| Id. 2 ^e id. | | 2 55 |
| Id. 3 ^e id. | | 1 09 |
| Et en moyenne générale | | 1 86 |

Chaque voyageur transporté, en 1846, avait donné une recette :

| | | |
|--|-----|------|
| Dans la 1 ^{re} classe, de | fr. | 4 60 |
| Id. 2 ^e id., de | | 2 41 |
| Id. 3 ^e id., de | | 1 12 |
| Et en moyenne générale, de | | 1 88 |

La taxe des voyageurs étant approximativement :

| | | | |
|---|-----|--------------------|--|
| De fr. 0 39 par lieue pour la 1 ^{re} classe, | | | |
| 0 29 | id. | 2 ^e id. | |
| 0 19 | id. | 3 ^e id. | |

Chaque voyageur a donc parcouru, en moyenne, en 1847 :

| |
|--|
| Dans la 1 ^{re} classe, 12 ¹ / ₁₀ lieues ; |
| Id. 2 ^e id., 8 ⁵ / ₁₀ id. |
| Id. 3 ^e id., 5 ⁷ / ₁₀ id. |

Chaque voyageur avait parcouru, en 1846 :

| |
|--|
| Dans la 1 ^{re} classe, 11 ⁸ / ₁₀ lieues ; |
| Id. 2 ^e id., 8 ³ / ₁₀ id. |
| Id. 3 ^e id., 5 ⁹ / ₁₀ id. |

Chaque voyageur de la 1^{re} et de la 2^e classes a donc parcouru, en moyenne, une distance plus longue en 1847 qu'en 1846, tandis que chaque voyageur de la 3^e classe a parcouru une distance moindre.

Il résulte des observations qui précèdent :

1^o Que, comme il y a eu diminution dans le nombre des voyageurs transportés à la 1^{re} classe et qu'au contraire il y a eu augmentation dans la recette, cette augmentation résulte exclusivement de ce que chaque voyageur a été transporté à une plus grande distance ;

2^o Que comme il y a eu diminution dans le nombre des voyageurs transportés à la 2^e classe et que chaque voyageur a été transporté à une distance plus longue en 1847 qu'en 1846, la diminution qui s'est fait sentir dans la recette résulte uniquement de la diminution du nombre des voyageurs ;

3^o Que comme le nombre des voyageurs de la 3^e classe a augmenté, tandis que le parcours moyen effectué par chacun d'eux a diminué, l'augmentation de la recette résulte exclusivement de l'augmentation du nombre de voyageurs.

La taxe des voyageurs, par classe et par lieue, et la recette des voyageurs transportés, par classe, étant connues, on peut encore établir qu'il a été transporté en 1847 :

| | |
|------------|--|
| 5,000,836 | voyageurs de la 1 ^{re} classe à une lieue ; |
| 7,981,775 | id. 2 ^e id. ; |
| 13,600,658 | id. 3 ^e id. |

Ensemble 26,583,269 voyageurs de toutes classes transportés à une lieue.

Le même calcul établi pour 1846 donne :

| | |
|------------|---|
| 4,893,567 | voyageurs de la 1 ^{re} classe, transportés à une lieue ; |
| 8,628,800 | id. 2 ^e id. id. ; |
| 12,941,003 | id. 3 ^e id. id. |

Ensemble 26,463,370 voyageurs de toutes classes transportés à une lieue.

Les transports militaires et extraordinaires ne peuvent entrer dans ces calculs, parce qu'ils sont effectués à des prix autres que ceux des tarifs.

Chaque voyageur civil a produit, du chef de ses bagages, une recette de fr. 0-14.

Cette recette n'avait été que de fr. 0-13 en 1846 et de fr. 0-12 en 1845.

La recette des marchandises de roulage présente, en 1847, comparativement à 1846, une augmentation de fr. 1,095,051-14, dont la répartition par chaque catégorie est consignée au tableau suivant :

| | RECETTE totale EN 1847. | RECETTE totale EN 1846. | AUGMENTATION EN 1847. | DIMINUTION EN 1847. | |

| Reste augmentation totale en 1847..... | | | 1,095,051 14=25 16 | | |

On voit que les marchandises de la 1^{re} classe présentent une augmentation de 16 p. % sur 1846, que les marchandises de la 2^e classe présentent une augmentation de 28 p. % et la location des waggons une augmentation de 69 p. %.

Mais, par contre, les marchandises de la 3^e classe et les transports sur les embranchements présentent une diminution sur 1846, les premières de 13 p. % et les secondes de 54 p. %; mais il faut remarquer que ces diminutions influent peu sur la totalité des recettes, attendu qu'elles portent sur des sommes relativement peu importantes; en effet la totalité des diminutions n'est que de 0.62 p. %, tandis que la totalité des augmentations s'est élevée à 23.78 p. % de la recette générale des grosses marchandises.

Les tableaux suivants renseignent les recettes de toute espèce, résultant des transports internationaux effectués, en 1847, entre la Belgique et l'Allemagne et entre la Belgique et la France.

Les transports internationaux de toute espèce ont produit en 1847, fr. 3,626,000 ou près de 24 1/2 p. % de la recette totale.

Les mêmes transports avaient produit en 1846 fr. 2,534,100
ou 18 1/2 de la recette totale; il y a donc eu en 1847 sur 1846, une
augmentation de fr. 1,091,900

Les transports de Belgique pour l'Allemagne et *vice versa* ont produit fr. 2,269,700

 Ils ont donc produit, en 1847 193,000 00
 de plus qu'en 1846.

Les recettes perçues du chef des transports par le chemin de fer, depuis le principe de l'exploitation jusqu'au 1^{er} janvier 1848, s'élèvent à la somme totale (Annexe n° XXXI) de fr. 90,002,454-70, répartie comme suit :

| | |
|------------------------------------|--------------------------|
| Voyageurs | fr. 56,843,562 00 |

§ 5.

CONSIDÉRATIONS GÉNÉRALES.

Nous allons rechercher quelles ont été la dépense et la recette et quel a été l'excédant de la recette sur la dépense par lieue exploitée et par lieue parcourue en 1847.

Comparaison de la recette et de la dépense par lieue exploitée.

| EXERCICES. | MONTANT total des recettes. | MONTANT total des dépenses d'exploitation. | NOMBRE de lieues de railway exploitées. | RECETTE moyenne par lieue exploitée. | DÉPENSE moyenne par lieue exploitée. | EXCÉDANT de la recette sur la dépense par lieue exploitée |
|------------|--------------------------------|--|--|--|--|---|
| 1844 | 11,250,495 51 | 5,765,450 80 | 111 9/10 | 100,451 64 | 51,569 14 | 48,882 50 |
| 1845 | 12,405,204 53 | 6,521,375 48 | 111 9/10 | 110,941 00 | 56,545 61 | 54,397 59 |
| 1846 | 15,633,908 82 | 7,243,766 52 | 111 9/10 | 122,143 87 | 64,810 08 | 57,553 79 |
| 1847 | 14,856,122 04 | 9,518,860 77 | 115 7/10 | 150,484 80 | 81,960 08 | 48,324 72 |

On voit que l'excédant de la recette sur la dépense par lieue exploitée a été moindre en 1847 qu'en 1846. Ce résultat provient de ce que la dépense a augmenté dans une proportion beaucoup plus forte que la recette.

Nous avons indiqué plus haut les causes de cette augmentation extraordinaire de dépense, qui ne peut être attribuée exclusivement à l'exploitation de 1847.

Comparaison de la recette et de la dépense par lieue parcourue.

| EXERCICES. | MONTANT total des recettes. | MONTANT total des dépenses d'exploitation. | NOMBRE total de lieues parcourues. | RECETTE moyenne par lieue parcourue. | DÉPENSE moyenne par lieue parcourue. | EXCÉDANT de la recette sur la dépense par lieue parcourue. |
|------------|--------------------------------|--|--|--|--|--|
| 1844 | 11,250,493 51 | 5,765,450 80 | 497,061 | 22 59 | 11 60 | 10 99 |
| 1845 | 12,405,204 55 | 6,521,575 48 | 545,502 | 22 74 | 11 59 | 11 15 |

L'excédant de la recette sur la dépense par lieue parcourue a également sensiblement diminué en 1847.

L'annexe n° XXXII présente le relevé des accidents survenus au chemin de fer en 1847.

§ 6.

SITUATION FINANCIÈRE DU CHEMIN DE FER.

Les dépenses de premier établissement du chemin de fer s'élevaient, au 1^{er} janvier 1847, à fr. 156,216,826 50
 Au 31 décembre elles avaient atteint. 160,161,878 52

Le capital moyen utilisé pendant l'année entière de 1847, a donc été de. 158,189,552 41
 Somme dont il faut déduire celle de. 1,171,654 24
 produite par la vente ou la rétrocession de terrains acquis pour le chemin de fer, de sorte que le capital moyen utilisé a été de 157,017,718 17

Pour considérer la recette comme produit du capital dépensé, on ne peut admettre que la recette qui est réellement entrée dans les caisses du trésor, c'est-à-dire qu'il faut déduire de la recette totale la part qui a été payée à la société concessionnaire de la ligne de Jurbise à Tournay et de la ligne de St-Trond à Hasselt.

| | |
|---|---------------------|
| La recette ainsi établie a été de. fr. | 14,789,755 72 |
| La dépense d'exploitation ayant été de. | <u>9,518,860 77</u> |
| L'excédant de la recette sur la dépense a été de. | <u>5,470,892 95</u> |

ou de fr. 3-48 p. % du capital moyen utilisé.

En 1846, l'excédant de la recette sur la dépense représentait fr. 4-22 p. % du capital utilisé.

A la somme de fr. 5,470,892 95 excédant de la recette sur la dépense, il faut ajouter comme produits du chemin de fer :

1° La somme de. 78,870 24 perçue de divers chefs par les administrations des domaines et de la douane. (Annexe n° XXXIII.)

Et 2° celle de. 841,511 76 montant des frais des transports effectués pour les services publics. (Annexe n° XXXIV.)

Les produits du chemin de fer se sont donc élevés, déduction faite de la dépense, à fr. 6,591,074 95 ce qui représente 4.07 p. % du capital moyen utilisé.

L'excédant de la recette sur la dépense, établi comme il vient de l'être, avait présenté, en 1846, 4.64 p. % du capital utilisé.

En 1847, la dépense d'exploitation a été de 62.81 p. % de la recette, et l'excédant de la recette sur la dépense de . . . 37.19 id.

100

En 1846, la dépense d'exploitation représentait 55 p. % de la recette, et l'excédant de la recette sur la dépense 47 id.

100

Ainsi la dépense a augmenté, en 1847, dans une proportion sensiblement plus forte que la recette.

Le compte suivant renseigne toutes les sommes sorties des caisses du trésor pour l'établissement du chemin de fer, jusqu'au 31 décembre 1847.

Ce compte est établi sur les documents n°s XXXV, XXXVI et XXXVII des Annexes, qui ont été dressés par le Département des Finances.

Compte général du chemin de fer, arrêté au 1^{er} janvier 1848.

Au 1^{er} janvier 1848, il ne restait réellement dû de la somme de fr. 257,774,107-90, que fr. 167,514,594-59, dont le produit de 1847 représente un intérêt de 3.82 p. %.

Au 1^{er} janvier 1847, de tous les fonds votés pour l'établissement du chemin de fer il restait dû par l'État une somme de fr. 166,584,286-65, dont le produit net de l'exercice 1846 a donné un intérêt de 4.23 p. %.

LE MINISTRE DES TRAVAUX PUBLICS,

Considérant que le mode de service de camionnage et du factage des marchandises en vigueur aux stations du chemin de fer de l'État, ne répond pas au but qu'il doit atteindre et donne lieu à de fréquentes réclamations ;

Voulant imprimer à ce service toute la régularité et la sécurité désirables en le confiant à des agents directs du Gouvernement ;

Attendu que les contrats passés avec les entrepreneurs actuels expirent le 31 de ce mois ;

Vu le rapport du directeur de l'administration des chemins de fer de l'État, en date du 13 novembre dernier, n° 326/14925 ;

Bruxelles, le 15 décembre 1847.

FRÈRE-ORBAN.

Règlement pour le service du camionnage et du factage des marchandises transportées par le chemin de fer de l'État.

ARTICLE PREMIER.

Le service a pour objet le camionnage et le factage des marchandises transportées ou à transporter par les chemins de fer de l'État et que l'administration fera remettre ou enlever à domicile dans les villes désignées ci-après et leur banlieue, jusqu'en-deçà des premières barrières, savoir :

| | | |
|--------------|-----------|--------------|
| Bruxelles, | Liège, | Mousson, |
| Malines, | Verviers, | Tournay, |
| Anvers, | Termonde, | Ath, |
| Louvain, | Gand, | Mons, |
| Tirlemont, | Bruges, | Charleroy, |
| Saint-Trond, | Ostende, | Châtelineau, |
| Hasselt, | Courtray, | Namur. |

Ce service comprend la conduite, l'encaissement des frais de transport, des débours, etc., le tout sous la responsabilité du maître de poste que la chose concerne. Il prendra cours le 1^{er} janvier prochain.

Les compagnies des chemins de fer concédés qui se raccorderont aux chemins de fer de l'État, dans l'une des stations mentionnées plus haut et dont le service s'y fera en commun avec celui du Gouvernement, auront la faculté de faire opérer la prise et la remise à domicile de leurs marchandises par le maître de poste, et ce aux prix et conditions fixés par l'arrêté en date du 15 décembre 1847.

ART. 2.

Le service s'effectuera aux prix suivants, savoir :

- a.* Pour chaque expédition de marchandises ou de bagages figurant sur une même lettre de voiture ou adressée au même domicile, du poids de 100 kilog. et au-dessous fr. » 20
 Au-dessus de 100 kilog., la taxe est applicable par 10 kilog.
- b.* Pour chaque camion de 1,000 kilog. et moins, transportés entre la station et le bureau de réception en ville, et à Bruxelles entre les diverses stations 1 50
- c.* Prise à domicile, par 100 kilog » 10

ART. 3.

Le maître de poste fournira et entretiendra en bon état le matériel de voitures, bâches et cerceaux nécessaires au service du camionnage et du factage, ainsi que les chevaux, qui seront forts et vigoureux et porteront un harnachement uniforme. Les camions à ressorts seront de construction solide et conformes au

modèle à prescrire par l'administration ; les autres voitures seront également d'une construction solide, appropriées aux différentes espèces de marchandises, et de la forme usitée dans les localités où le service aura lieu. Toutes porteront l'inscription : *Chemin de fer de l'État*, ainsi qu'un numéro d'ordre ; faute par le maître de poste de faire à ce matériel les réparations qui lui seraient indiquées, ou de remplacer les voitures rebutées par l'administration, celle-ci y pourvoira d'office, aux frais du maître de poste, après l'avoir mis en demeure.

ART. 4.

Les facteurs et conducteurs du maître de poste seront tenus d'exécuter les ordres du chef de station ; en cas d'insubordination de leur part, le maître de poste devra pourvoir à leur remplacement ; s'il se refusait à obtempérer à l'invitation qui en sera faite, l'administration les remplacera d'office, aux frais du maître de poste.

Les facteurs et conducteurs se procureront, à leurs frais, l'uniforme prescrit et ne pourront, sous aucun prétexte, se dispenser de le porter en service.

ART. 5.

L'entretien des voitures, des harnais, la nourriture des chevaux, les salaires des facteurs et des conducteurs demeurent exclusivement à la charge du maître de poste.

ART. 6.

Il devra avoir constamment et à ses frais, à la station, un fondé de pouvoirs muni d'une procuration régulière pour donner aux employés de l'administration décharge des marchandises qu'il recevra.

ART. 7.

Les voitures devront toujours être exactement rendues à la station aux heures fixées par l'administration ; le maître de poste se conformera aux ordres de service qu'il recevra pour assurer le prompt enlèvement des marchandises et les conduire de la station à domicile ou de chez l'expéditeur à la station.

ART. 8.

En cas de suspension totale ou partielle du service du camionnage, par suite d'une cause étrangère à l'administration, celle-ci y pourvoira par des marchés d'urgence, aux frais du maître de poste, contre lequel elle fera en outre valoir ses droits à des dommages-intérêts, de même que pour toute infraction aux dispositions du présent règlement.

ART. 9.

Le chargement des marchandises sur les voitures s'effectuera par les ouvriers de l'administration, sous la responsabilité du maître de poste ; quant aux chargements et aux déchargements à domicile, ils auront lieu exclusivement aux frais de ce dernier. Il est entendu que dans la station, ainsi qu'au bureau de réception en ville, les facteurs et conducteurs de camions aideront, au besoin, les ouvriers de l'administration à charger les voitures.

ART. 10.

Le maître de poste est responsable des marchandises qui lui sont confiées, du moment où son agent en a donné décharge sur le livre de factage général, qui reste déposé au bureau; cette formalité remplie, elles sont censées lui avoir été remises en bon état ; sa responsabilité dure jusqu'à ce que le destinataire ait signé le livre du facteur; pour les marchandises enlevées à domicile, sa responsabilité est engagée par l'acceptation sans observation, et ce jusqu'à la remise au bureau d'expédition, constatée par l'inscription au registre-journal à ce destiné.

ART. 11.

Les indemnités à payer pour pertes et avaries survenues à des marchandises pendant le trajet de la station au domicile du destinataire, ainsi que du domicile de l'expéditeur à la station, ou pour retard dans la remise, seront acquittées par le maître de poste aux intéressés, aussitôt après l'évaluation qui en aura été faite par l'administration du chemin de fer ; sinon le montant en sera déduit des sommes à lui payer en exécution de son contrat.

ART. 12.

Les facteurs seront munis d'un registre coté et paraphé, fourni par l'administration ; le commis aux marchandises, après avoir inscrit sur ce registre les marchandises à remettre à domicile, en fera, contre la décharge mentionnée à l'art. 10, la délivrance au facteur, qui dès lors deviendra responsable de la prompte livraison de ces marchandises, en bon état, aux destinataires. Toutes les sommes portées à recevoir sur ledit registre seront, après chaque tournée, immédiatement versées par les facteurs, entre les mains du chef de station ou de son délégué ; ils devront aussi remettre après la tournée, soit au bureau en ville, soit à la station, suivant qu'ils en auront reçu l'ordre, les articles refusés ou dont les destinataires seraient inconnus. L'employé qui recevra ces objets émargera le livre du facteur pour la décharge du maître de poste, qui ne recevra du chef de ce retour aucune indemnité ; il ne lui sera payé en ce cas que le simple prix stipulé pour la remise à domicile. Le compte du maître de poste sera immédiatement réglé sur les registres, après chaque tournée, et l'on indiquera en même temps, dans la colonne

d'observations, l'heure de départ de chaque camion, et le temps accordé pour la remise ou pour l'enlèvement à domicile.

Les livres des facteurs seront soumis chaque jour au visa du chef de station.

ART. 15.

Les paiements des sommes dues au maître de poste, pour le service dont il s'agit, auront lieu dans les 30 jours qui suivront l'expiration de chaque mois, sur états mensuels dressés par le chef de station d'après le registre de factage. Ces états devront être acceptés par le maître de poste, visés par l'inspecteur chef du service des transports et par le directeur de l'administration. Ils seront ensuite transmis à M. le Ministre des Travaux Publics, qui en ordonnera la liquidation.

Présenté à l'approbation de M. le Ministre des Travaux Publics.

N° XIX.

Arrêté royal du 21 juin 1847.—Exemption de visite des malles et des effets des voyageurs au bureau de Quiévrain.

LÉOPOLD, ROI DES BELGES,

A tous présents et à venir, salut.

Vu la loi du 18 juin 1842 (*Bulletin officiel*, n° 400), qui permet au Gouvernement de modifier le régime d'importation en transit et sur entrepôt;

Vu la loi générale du 26 août 1822 (*Journal officiel*, n° 38);

Revu Notre arrêté du 5 juin 1845 (*Bulletin officiel*, n° 40);

Sur la proposition de Nos Ministres des Finances et des Travaux Publics,

NOUS AVONS ARRÊTÉ ET ARRÊTONS :

ARTICLE PREMIER.

Par modification à Notre arrêté précité, les malles et effets des voyageurs venant de France par le chemin de fer du Nord, entrant par le bureau de Quiévrain et expédiés à la destination de Bruxelles par le chemin de fer de l'État, sont exemptés de la visite à la frontière sous les conditions et formalités indiquées aux articles suivants :

ART. 2.

Les malles et colis contenant des effets de voyageurs seront accompagnés d'une feuille de route spéciale, indiquant le nombre et le poids des colis par bulletin.

ART. 3.

Ces colis seront placés dans des waggons ou compartiments de waggons distincts, sous cadenas et expédiés avec escorte de la douane.

ART. 4.

Le transport en sera couvert par un passavant-à-caution du bureau de

Quiévrain, auquel la feuille de route sera annexée au moyen d'un cachet de l'administration des douanes.

Ces pièces, placées sous enveloppe cachetée, seront confiées aux employés d'escorte pour être remises au contrôleur des douanes, à Bruxelles.

ART. 5.

A l'arrivée du convoi à Bruxelles, le contrôleur des douanes ou l'employé qui le remplace, fera transporter, de concert avec le chef de station, les malles et colis à visiter dans un local affecté spécialement à cet usage.

ART. 6.

Les objets qui, par leur nature, ne pourraient être considérés comme effets de corps à l'usage des voyageurs dans le sens du n° 3 de l'art. 5 de la loi générale, seront déclarés et soumis au paiement des droits, et, s'il y a lieu, les pénalités comminées par la loi générale et par celle du 6 avril 1843 seront appliquées.

ART. 7.

Tout colis renfermant *des objets de commerce*, et qui aurait été admis par erreur avec les bagages des voyageurs, sera dirigé, aux frais du déclarant, sur la succursale de l'entrepôt pour y être soumis aux formalités de douanes sous le régime de l'arrêté du 5 juin 1845.

ART. 8.

Sont maintenues les dispositions actuellement en vigueur en ce qui concerne la visite des voyageurs à la frontière, et les malles et colis ayant une autre destination que Bruxelles.

Nos Ministres des Finances et des Travaux Publics sont chargés, chacun en ce qui le concerne, de l'exécution du présent arrêté.

Donné à Laeken, le 21 juin 1847.

N° XX.

Convention réglant les relations du service entre l'exploitation des chemins de fer de l'État et la Compagnie concessionnaire des chemins de fer de la Flandre occidentale.

Entre les soussignés :

Représentants de l'administration des chemins de fer de l'État, d'une part, et de la Compagnie concessionnaire des chemins de fer de la Flandre occidentale, d'autre part ;

Il a été convenu ce qui suit :

ARTICLE PREMIER.

Les stations du chemin de fer de l'État à Bruges et à Courtray seront exploitées à frais communs par les deux administrations.

Le personnel des deux stations, ni les traitements des agents y attachés, ne pourront être augmentés que de commun accord avec le directeur de la Compagnie.

Le service de ces stations, en ce qui concerne la recette des voyageurs, des bagages et des marchandises, ainsi que le chargement et le déchargement, la formation des convois, et, en un mot, tout le service intérieur des bureaux et de la station, sera fait par les agents du Gouvernement.

ART. 2.

Le service de traction des convois de la Compagnie concessionnaire jusqu'au point d'arrêt dans les deux stations de Bruges et de Courtray, sera fait par la Compagnie concessionnaire au moyen de ses agents et de son matériel.

L'entretien de ce matériel, ainsi que les frais du personnel attaché à la locomotion et aux convois, est à la charge de la compagnie.

ART. 3.

Dans le but de faciliter le transport des voyageurs, les deux administrations feront un échange de coupons de manière à permettre la délivrance des places jusqu'à destination sur les deux lignes. Toutefois cette mesure ne s'appliquera provisoirement qu'aux stations désignées ci-après :

Sur le chemin de fer de l'État :

Ostende, Aeltre, Gand, Deynze et Bruxelles.

Sur le chemin de fer de la Compagnie :

Thourout, Roulers et Iseghem.

ART. 4.

Les bagages seront inscrits également de part et d'autre pour les destinations ci-dessus indiquées.

La remise s'en opérera aux stations de Bruges et de Courtrai entre les gardes-convois des deux administrations qui s'en donneront mutuellement décharge.

ART. 5.

Les marchandises, en général, seront acceptées au transport de part et d'autre jusqu'aux stations de destination.

L'échange s'en opérera entre les agents des deux administrations à Bruges et à Courtrai.

ART. 6.

Le transport des équipages, chevaux et bestiaux aura lieu *de et pour* les stations désignées à l'article 3.

ART. 7.

Le matériel des deux administrations sera admis à circuler de part et d'autre sur les chemins de fer de l'État et sur ceux de la Compagnie. Toutefois, provisoirement, les locomotives de la Compagnie ne pourront circuler que dans les parties des stations de Bruges et de Courtrai qui seront assignées à son service.

La circulation de ces locomotives sur la route de l'État est formellement interdite, à moins d'autorisation spéciale et réciproquement.

ART. 8.

Il sera tenu compte de part et d'autre de la circulation du matériel de chaque administration sur le territoire de l'autre.

Le compte aura pour base les prix suivants :

1° Pour le parcours d'une locomotive allumée, soit à charge soit à vide, par kilomètre, un franc vingt centimes (fr. 1-20);

2° Pour le parcours d'une voiture quelconque à vide ou à charge, par kilomètre, cinq centimes (fr. 0-05).

Sans que l'indemnité par jour puisse être inférieure à trois francs cinquante centimes.

Toutefois le *minimum* ci-dessus ne sera appliqué qu'après un délai de deux jours pour les voitures de voyageurs, et de trois jours pour les waggons à marchandises, en comptant le jour d'entrée et le jour de sortie.

ART. 9.

Les grandes réparations du matériel s'effectueront par l'administration à laquelle il appartient.

Les petites réparations urgentes auront lieu par les soins de l'administration sur le territoire de laquelle le matériel se trouve.

Toutes les dépenses qui seront faites de ce chef par l'une des parties contractantes, soit pour réparations, soit pour fournitures quelconques, devront être justifiées par pièces comptables, certifiées par les chefs de service compétents et soldées réciproquement par trimestre.

ART. 10.

En cas d'accident, les conséquences en seront supportées comme suit :

A. Par l'administration du chemin de fer sur lequel l'accident aura eu lieu, s'il résulte de la construction ou de l'entretien de la voie, ou s'il doit être attribué au personnel de la route des stations.

B. Par l'administration à laquelle appartiennent les locomotives, voitures ou waggons, si la cause de l'accident doit leur être attribuée.

C. A frais communs lorsqu'il y aura doute sur les causes de l'accident.

ART. 11.

Tout dommage entraînant payement d'indemnités aux intéressés du chef de retard, d'entraves, de pertes ou d'avaries occasionnées aux expéditions, sera supporté par l'administration sur le territoire de laquelle le fait aura eu lieu, les cas de force majeure exceptés.

ART. 12.

Il sera établi un tarif commun résultant de la réunion des tarifs respectifs des deux administrations qui ne pourront y apporter aucune modification, sans avertissement préalable donné au moins un mois à l'avance.

Le décompte des recettes effectuées par chaque administration pour l'autre se fera mensuellement entre les deux directions.

ART. 13.

Les fonctionnaires de la Compagnie chargés du service des recettes et transports auront droit de surveiller les opérations des bureaux de Bruges et de Courtray, en ce qui concerne les intérêts de la compagnie; leurs vérifications se feront, autant que possible, de commun accord avec les contrôleurs ou vérificateurs au Gouvernement.

ART. 14.

La Compagnie fait également surveiller par un fonctionnaire à ce désigné, tout ce qui concerne son service de locomotion et de matériel.

ART. 15.

Les chefs des stations de Bruges et de Courtray ont sous leurs ordres tous les agents de la Compagnie attachés au service des convois et des remises aux locomotives.

Toutefois, en ce qui concerne les remises, ils n'interviennent que pour ce qui concerne la police, le bon ordre et l'exécution des règlements.

ART. 16.

Il sera inséré au cahier des charges pour le camionnage des marchandises du Gouvernement, une clause qui permettra de rendre ce cahier des charges applicable, à *Bruges* et à *Courtray*, aux marchandises transportées par la Compagnie.

ART. 17.

Le Gouvernement met à la disposition de la Compagnie,

A Bruges :

- A. La remise aux locomotives ;
- B. Le petit bâtiment contenant l'ancien réservoir à eau ;
- C. Les emprises nécessaires pour se raccorder avec le railway de l'État ;
- D. L'usage en commun de la station, des bureaux et dépendances.

A Courtray :

- A. La remise aux locomotives ;
- B. Le petit bâtiment près de cette remise ;
- C. Les emprises nécessaires pour se raccorder avec le railway de l'État ;
- D. L'usage en commun de la station, des bureaux et de leurs dépendances.

ART. 18.

La Compagnie sera autorisée à construire à Bruges, à ses frais, et pour son usage particulier, un hangar à voitures, sur un point à déterminer par les deux administrations, entre le viaduc et l'atelier des locomotives.

La Compagnie posera, à ses frais, les voies et plates-formes et les excentriques qui seront spécialement affectées à son service dans les stations de *Courtray* et de

Bruges, et ce, conformément aux plans qui auront été arrêtés et approuvés de commun accord entre elle et l'administration des chemins de fer de l'État.

ART. 19.

La Compagnie payera annuellement au Gouvernement :

1° Pour usage des ateliers, bâtiments, emprises à la station de *Bruges*, une somme de *cinq mille deux cent vingt-cinq francs* ;

2° Pour usage de la remise aux locomotives, bâtiments, bureaux, emprises à la station de *Courtray*, une somme de *cinq mille deux cent vingt-cinq francs*.

Toutefois jusqu'au moment où les bâtiments définitifs de la station de *Courtray* seront construits et livrés à l'exploitation, cette redevance sera réduite à *mille sept cent vingt-cinq francs par an*.

Il est entendu que la station de *Courtray* aura une gare couverte.

3° Pour le service fait par le personnel de l'État, pour compte de la Compagnie, la Compagnie payera une somme proportionnelle

A. Au nombre de bulletins de voyageurs délivrés ;

B. Au nombre d'enregistrements d'articles et bagages et de petites marchandises, d'équipages et de bestiaux ;

C. Au nombre de tonnes de grosses marchandises expédiées.

Un tiers de la dépense totale du personnel de la station sera pris pour base de chacune de ces catégories.

Ces paiements s'effectueront par douzièmes, après l'acceptation par les parties contractantes du décompte mensuel.

Le montant en sera versé au bureau de *Bruges* et inscrit comme produit extraordinaire.

ART. 20.

Un règlement particulier entre les deux administrations déterminera le mode à suivre pour l'exécution de la présente convention, la tenue des écritures dans les stations communes, et l'établissement des décomptes qui devront être arrêtés et liquidés mensuellement.

ART. 21.

La présente convention recevra son exécution à dater du 15 septembre 1846. Elle devra être confirmée ou renouvelée avant le 1^{er} janvier 1848.

ART. 22.

**Tableau du mouvement des petites marchandises, PAR POINT D'EXPÉDITION
et PAR POINT DE DESTINATION, pendant l'année 1847.**

- N. B.* La première colonne indique le nombre de colis transportés au *minimum* de 60 centimes.
On a pris cent kilogrammes pour unité dans le transport au poids.
Les fractions au-dessous de 50 kilog. sont négligées, celles au-dessus sont comptées
pour cent ; de là les différences que l'on rencontre dans les additions.
Le zéro indique une quantité au-dessous de 50 kilogrammes.

N^o XXV¹⁰.

**Tableau du mouvement des transports, par location de waggons, PAR POINT
D'EXPÉDITION et PAR POINT DE DESTINATION, pendant l'année 1847. (Tarif n^o 6.)**

N. B. La première colonne indique le nombre de waggons transportés.

La seconde colonne indique le poids, dont le tonneau (1,000 kil.) a été pris pour unité.
Les fractions au-dessous de 500 kilogrammes sont négligées.

Celles au-dessus sont comptées pour un tonneau ; de là les différences que l'on rencontre
dans les additions.

Le zéro indique une quantité au-dessous de 500 kilogrammes.

Il n'y a eu aucun transport de l'espèce aux stations qui ne figurent pas au présent
tableau.
